|--|--|------------------|-----------------|------------------|---------|-----------|-------------|----------|-----------|----------------------|
| <i>Disabilities Is Natural</i>                     | There have always been people with disabilities in the world and there always will be! Like gender and ethnicity, disability is simply one of many characteristics of being human. One in five American is a person with a disability. So how can disability not be natural?   |                  |                 |                  |         |           |             |          |           | B<br>EPC<br>IV<br>NC |
| Together We're Better<br>Respectful Accommodations | Successful inclusion requires creative and responsive accommodations to support children with diverse abilities.   |                  |                 |                  |         |           |             |          |           | B<br>EPC<br>IV<br>NC |
| Together We're Better<br>Positive Behavior Support | Positive Behavior Support addresses the fact that all children display some type of behavioral challenge. However, some children have a more difficult time managing their behavior, and often times this may be related to the disability they have. This video training focuses on how to prevent negative behaviors before they occur and how to create environments that offer positive behavior support to children with behavioral challenges. |                  |                 |                  |         |           |             |          |           | B<br>EPC<br>IV<br>NC |
| Together We're Better<br>Introduction to Inclusion | Starting the journey to inclusion requires an understanding of the pasts, and a philosophy for the future. This training will provide program staff, leadership and volunteers with the tools necessary to fully understanding the rationale for including children with disabilities.   |                  |                 |                  |         |           |             |          |           | B<br>EPC<br>IV<br>NC |
