

Daisy Journey Guide

It's Your Planet—Love It!

Between Earth and Sky

1. The Purpose of Between Earth and Sky

i Look around and tell someone what you see. Can you label the things you see? Observation, communication, and classification are skills you can build. In this Journey you'll explore math, science and develop paths that will help you grow as a Girl Scout and a leader.

2. Take Action Project

i To complete *Between Earth and Sky* finish the Journey and complete a take action project. Work with friends or by yourself. Adults are there to help you too.

NOTE to adults—This is a project your girl should plan and lead. It doesn't have to be big. It's important she explore her world. What does she see? What does she want to change? How can she take steps to help make those changes? Help her pursue her interests in a greater depth.

Examples:

- Want to be a world-traveler? Help plan a day-trip to the city.
- Want to be a mathematician? Create a mini math pamphlet!

3. Blue Bucket, Firefly, and Clover Awards

i Throughout *Between Earth and Sky* you have the option to earn the Blue Bucket, Firefly, and Clover awards.

- **Blue Bucket:** Tell someone about your feelings. Listen to someone tell you about their feelings. Have fun with a role-playing game. Practice resolving conflicts, negotiating, and being considerate to others.
- **Firefly:** Talk to someone about what you are good at. What are your skills? Then choose a talent you want to teach. Do three activities to teach that skill.
- **Clover:** Learn about, then help protect a natural treasure in your area. Pass on what you learned and get others to help too!

4. Field Trip Ideas

i Now it's time to discover and connect with the world around you.

NOTE to adults—Field trips help plant a seed of growth in girls by showing them how other people solve community problems.

Examples:

- Visit a community garden.
- Go to a local park.

5. Between Earth and Sky Ending

i You did it. You completed *Between Earth and Sky*! You finished a take action project and hopefully the optional awards too.

Take time to celebrate and share what you learned with your friends and your family. Congratulations!
